Technical Acceptance Certificate Canada

Certification No.: 6534A-SI00

Dear Sir, Madame,

Evaluation of the documentation provided for re/assessment of the SE600 has been completed and I am pleased to advise that the device meets the Industry Canada procedural and certification requirements. Certificate No. CA000611W has been issued for this device.

The assigned certification number prefixed by the characters "IC:" must be shown on each equipment model. This certification information must be permanently affixed to the device by labelling or other means, such that it is not removable except by destruction or defacement. It may be shown on the equipment model identification plate or on a separate label.

Details of this certification have been notified to Industry Canada and will appear in the REL in due course. Please note that it is not allowed to market this device in Canada until details of the certification have been added to the REL.

Yours sincerely,

EMCCert DR. RAŠEK GmbH

Certification of equipment means only that the equipment has met the requirements of the above noted specification. License applications, where applicable to use certified equipment, are acted on accordingly by the issuing office and will depend on the existing radio environment, service and location of operation.

This certificate is issued on condition that the holder complies and will continue to comply with the requirements and procedures issued by Industry Canada.

La certification du matériel signifie seulement que le matériel a satisfait aux exigences de la norme indiquée ci-dessus. Les demandes de licences nécessaires pour l'utilisation du matériel certifié sont traitées en conséquence par le bureau de délivrance et dépendent des conditions radio ambiantes, du service et de l'emplacement d'exploitation.

Le présent certificat est délivré à la condition que le titulaire satisfasse et continue de satisfaire aux exigences et aux procédures d'Industrie Canada.
